

Mohomed Ayaz

Software Engineer | Full-Stack Web & Mobile

+94 714 573 090 • ayazm9582@gmail.com • github.com/Ayazmax • [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience delivering full-stack web and mobile applications for business and enterprise clients. Comfortable across React, Angular, .NET, Flutter, Node.js, and SQL databases, with production work covering APIs, authentication, cloud services (AWS, Firebase), and team-based delivery. Looking for Software Engineering and IT roles where I can build reliable, user-centred products.

TECHNICAL SKILLS

Languages	JavaScript, C#, PHP, Python, Dart, SQL
Frontend	React, Angular, HTML & CSS, React Native, Flutter
Backend	.NET, Node.js, REST APIs
Databases	MySQL, PostgreSQL, Firebase
Integrations	OAuth 2.0, JWT, AWS Cognito, Twilio, Firebase Auth
Cloud & Tools	AWS, Git, Heroku, Flask, Android Studio

PROFESSIONAL EXPERIENCE

Full-Stack Software Engineer

Jan 2026 - Present

Scroll Kuwait

- Building end-to-end full-stack web applications as part of a delivery team.
- Main focus on backend development for industry-grade software systems.
- Working in a collaborative environment to ship production-ready features.

Associate Software Engineer

Jan 2025 - Dec 2025

SkyMax Solutions

- Built end-to-end full-stack web applications using .NET, Angular, and MySQL for enterprise clients.
- Developed mobile applications with Flutter and Android Studio to improve customer engagement.

Software Developer

May 2024 - Nov 2024

ICT Option

- Designed and implemented React frontends for enterprise-level applications.
- Developed cross-platform mobile applications using Flutter and integrated backend APIs.
- Collaborated with teammates to deliver scalable, user-friendly software within deadlines.

Freelance Full-Stack Developer

Jan 2023 - Present

Independent / Client Projects

- Developed and deployed full-stack web applications using PHP, MySQL, and JavaScript for small-business clients.
- Built responsive user interfaces with HTML, CSS, React, and Flutter across web and mobile.
- Integrated Firebase authentication and real-time database to support secure user management.

EDUCATION AND CERTIFICATIONS

BSc in Software Engineering

2023 | Second Upper Class

Kingston University

Higher National Diploma (HND) in Software Engineering

2022 | Merit

ESOFT Campus

Certificate in Software Test Automation

2023

IMPERIAL College

Diploma in English

2021 | Distinction

ICBT Campus

SELECTED PROJECTS

Primo Valet - Parking System (backend and admin frontend)

React | Node.js | PostgreSQL | AWS | Twilio IVR | Cognito OAuth | Firebase

- Built the backend and admin frontend for a parking management platform with IVR (Twilio) and push notifications.
- Implemented OAuth with AWS Cognito and hosted services on AWS.

Darbid - Auction System (backend and admin frontend)

React | Node.js | MySQL | AWS | Firebase

- Developed the backend and admin frontend for an online auction platform.
- Integrated AWS infrastructure and Firebase notifications for real-time updates.

Travel Mobile App with Image Detection and NLP Chatbot

Flutter | Python | Firebase | Deep Learning | NLP / NLU | Heroku

- Built a travel-based mobile application with image detection and an NLP chatbot.
- Used Firebase and Heroku for data, messaging, and deployment of supporting services.

Chronic Disease Detection - Mobile Frontend

Flutter | Firebase | Flask | Android Studio

- Developed the mobile frontend for detecting chronic-disease risk from physical-activity data.

Food Order Website

HTML | CSS | PHP | MySQL

- Built a food-ordering website with a PHP application layer and MySQL database.
